

# Polish Crema Marfil versus honed finish

**Q.** I have a client that has crema marfil tile throughout the bottom floor of their house. When purchasing the floor they were never made aware that you could get either polished or honed. I believe they got honed. Is there a process or way to achieve that polished look after the fact. If so, please advise.

**A.** Yes polishing this type of stone is what all our restoration partners do as part of their service. This is not a do it yourself project. To find a Certified SurpHaces PRO Partner near you, [contact us](#).
